HOW TO FIND THE COST OF YOUR LETTERING

All prices are based on the typeface's capital letter height, regardless of whether the chosen boat name is upper and lowercase or all capitals: A capital letter is measured as the distance between the base line to the top of the highest capital letter.

ALL CAPITAL LETTERS

OR CAPITALS AND LOWER CASE

We do not charge extra for characters that descend below the base line.

If you require a two colour shadow effect then please double the single colour letter cost.

Contact us for special effects such as arching, embellishments, distortions, underlines, graphic symbols, stripes, etc., as an additional charge will be applicable.

If you are restrained over the space available for your name then please let us have the dimensions of the space so that we can ensure that the name will fit within it.

We only use a high quality 7 year marine vinyl and all names are supplied on pre-spaced application sheets.

See our web site for typestyles and colours available, or contact us by phone, fax or email and we can post you a **FREE** unique sample sheet showing your chosen boat name in all of our normal styles, along with samples of the actual vinyl colours we use that would be of interest.

We have access to over 120,000 different typestyles so if you need a face that is not shown on our available styles then we are sure we can find it for you.

Please give us a ring if you have any questions whatsoever on boat names.
